ANTI-MICROBIAL MAT

- ▶ Disposable
- ▶ Inexpensive
- ▶ Non-Yellowing
- ▶ Anti-Microbial
- ▶ Patented

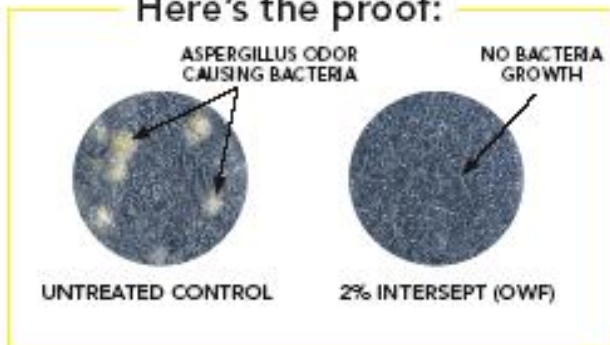

“I don't know who appreciates this product more... the man who doesn't have to stand in urine or the person who doesn't have to clean it up!”

*Bill Kenneth, Facility Director*

# WizKid

ANTI-MICROBIAL MAT

Here's the proof:

**SAVE  
Time...  
Money...  
Your nose!**

**Spish, splash, splatter...** in minutes, the money you paid to have the floors cleaned in your restroom have gone down the toilet. Don't worry, there will be a constant reminder until the cleaning team returns... it's called stench!

We have put an end to this. The **WizKid** Mat preserves your restroom and your investment. The mat protects tile, marble or wood floors from the stains and odor left by the inevitable drips, splashes and splatters by capturing the urine. This anti-microbial mat neutralizes the urine's odor, leaving it clean, fresh and odor-free.

***Making GREAT Restrooms Even BETTER***

In September of 2004, Sanastar Inc. received two separate patents for a urinal mat, and we began production on the finest mat on the market.

The **WizKid** mat is long-lasting, yet disposable. The chart below will help you to determine an approximate timetable for mat replacement:

Environment	Usage	Replacement Schedule
Typical Office	50 times per day	Monthly
Retail Stores	200 times per day	Every two weeks
Schools, Universities, Restaurants	300 times per day	Every week
Airports, Stadiums, Rest stops	Continual	As needed

We have been overwhelmed by the diversity of customers who are thankful to have found an obvious solution for a filthy problem. From military bases to hospitals, from car dealerships to universities, from casinos to churches – every restroom benefits from this product. **The proof is in the puddle (or lack thereof!).**
